PROFESSIONAL SUMMARY

Associate Software Developer with 2+ years of experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing responsive user interfaces, integrating REST APIs, and delivering end-to-end features, including a Calendly-like meeting scheduling platform with calendar integrations and automated email notifications. Passionate about building clean, maintainable, and user-centric applications.

PROFESSIONAL EXPERIENCE

Associate Software Developer

12/2023 – 07/2026 | Pune, India

Clodura.ai 🔗

- Designed and developed a Calendly-like meeting scheduling platform, enabling users to create shareable booking links, manage availability, recurring schedules, and seamless meeting booking.
- Built an interactive scheduling interface using FullCalendar, supporting timezone-aware scheduling, recurring availability, calendar synchronization, and meeting management.
- Developed backend APIs using Node.js, Express.js, and MongoDB to manage users, availability, events, meetings, and scheduling workflows.
- Implemented robust timezone conversion logic to accurately display user availability and meeting schedules across multiple time zones.
- Successfully completed 180+ development tasks spanning feature implementation, production issue resolution, UI enhancements, CRM integrations, and performance optimization.
- Resolved complex production issues involving calendar synchronization, CRM integrations, API workflows, state management, filtering, pagination, and dashboard analytics, improving overall application reliability.
- Improved application performance and maintainability by refactoring reusable React components, optimizing rendering, and enhancing frontend architecture.
- Collaborated with product managers, designers, QA engineers, and backend developers in an Agile environment to deliver scalable, user-centric features on schedule.

TECHNICAL SKILLS

Frontend

React.js, Next.js, HTML5, CSS3, JavaScript (ES6+)

Backend

Node.js, Express.js

Tools

Git, GitHub, Postman, VS Code

Database

MongoDB

PROJECTS

Daily Essential 🔗

Developed a full-stack React-based e-commerce platform inspired by DailyObjects, featuring user authentication, product browsing, filtering, cart management, checkout, and an admin dashboard.

EDUCATION

Full-Stack Web Development (Full-time)

10/2022 – 06/2023

Masai School, Bengaluru

B.E. Instrumentation

08/2018 – 08/2022

AISSMS IOIT, Pune
